

## Christian Eder

Head of Systeme und Prozesse, OeBB-Personenverkehr AG, Wien/Vienna, A

An excellent academic background in IT and economy as well as a couple of years in enterprise consulting provided the base for his career in the industry.

After senior management positions in IT and organization in an international enterprise and an oil company, Christian Eder became head of Systeme & Prozesse of OeBB Personenverkehr in mid-2005.

Christian Eder: 'We must facilitate the client's access to the railway system'.

## Barrierfree travel information offered by OeBB

### Abstract

The presentation "OeBB travel information for disabled passengers" gives an overview of travel information currently provided by OeBB.

The focus is on travel information for passengers with reduced mobility and on facilitating access to information in general. The potential of travel information by timetable information systems is particularly focused on.
